

Digital Learning with Festo LX for WorldSkills

Festo Didactic is a leading provider in technical education, offering educational institutions and industrial companies around the world state-of-the-art training solutions for many areas of technology to train people the right skills for highly dynamic and complex industrial environments.

In reference to the long-term cooperation as Global Partner with WorldSkills International and to the WorldSkills Year of Innovation 2021, Festo recently came up with an activity addressing Digital Skills, Knowledge and Capacity Building for the WorldSkills Community.

Festo Learning Experience

Festo Didactic developed an online portal for teachers and learners to access and create a customized learning experience, called the Festo Learning Experience. This digital learning portal for technical education and training picks up current and future learning trends at an early stage and offers comprehensive learning content for many areas of technical education and training.

400 free accounts

WorldSkills International was exclusively offered 400 free user accounts for Festo LX addressing individuals playing a role in the Global WorldSkills Movement like e.g. WorldSkills Technical Delegates, Skills Competition Managers, Chief Experts and Deputies Experts. The offer is valid until December 31, 2021.

30 years GIP

The goal of this activity is to create awareness for the ever-growing importance of digital learning and to stay connected with the WorldSkills manufacturing cluster in times of COVID. Not to forget, Festo and WorldSkills celebrate 30 years of Global Industry Partnership. Reason

enough to familiarize WorldSkills with Festo's lead skills Mechatronics, Industry 4.0, or Water Technology.
