

Entrepreneurship and VET: get inspired, make it happen

Alison Crabb, Head of Skills and Qualifications Unit,
European Commission

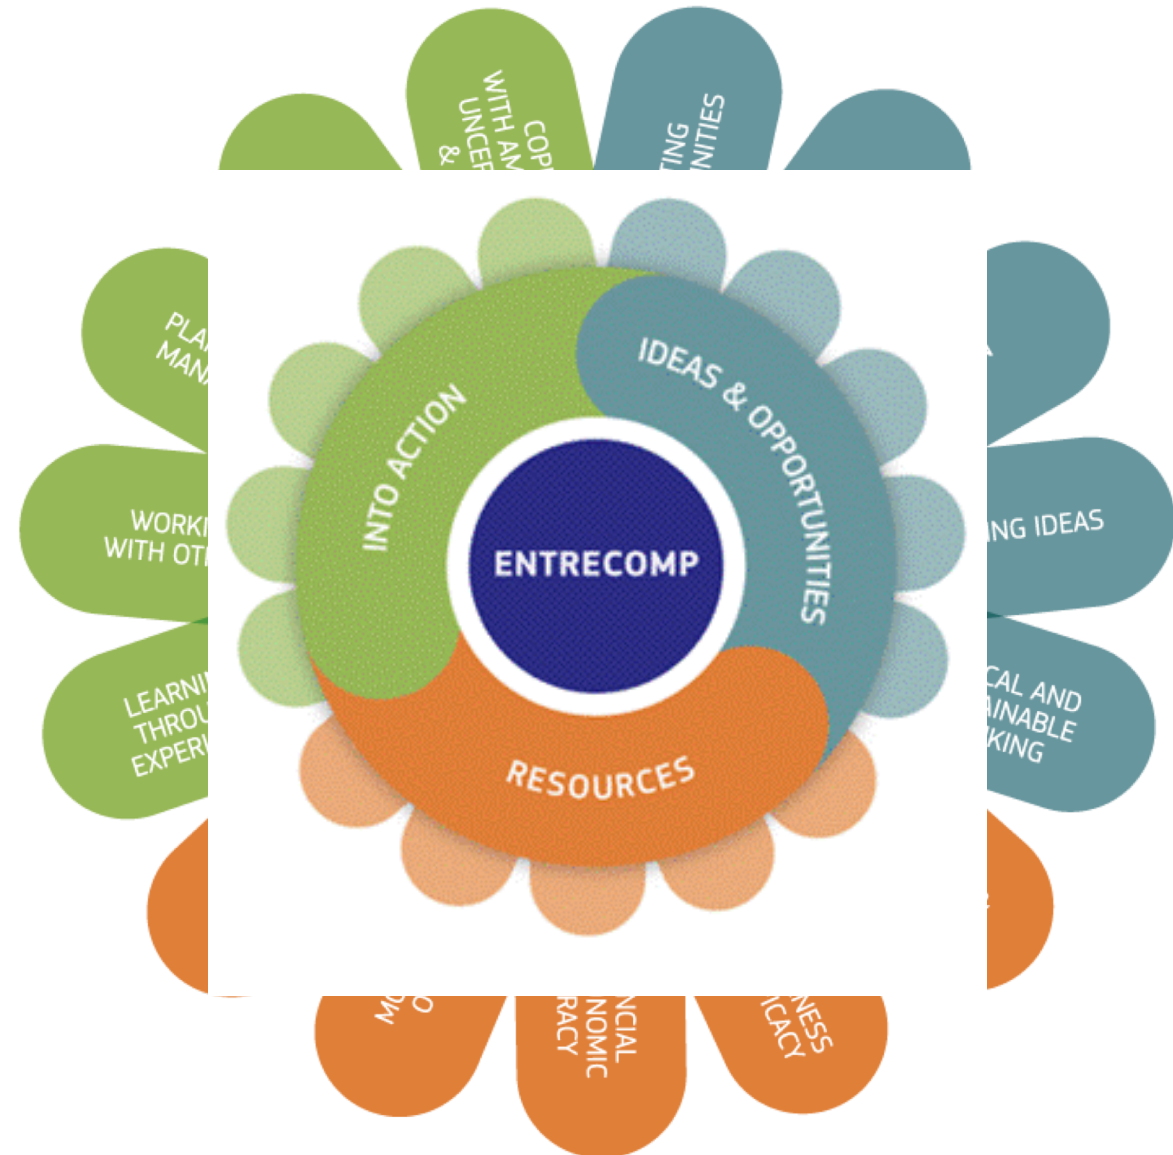

Elin McCallum, Director of Bantani Education

William O’Keeffe, Policy Officer, DG Employment,
Social Affairs and Inclusion, European Commission

What is EntreComp?

Entrepreneurship as a competence is defined as the capacity to act upon opportunities and ideas to create value for others. The value created can be social, cultural, or financial.

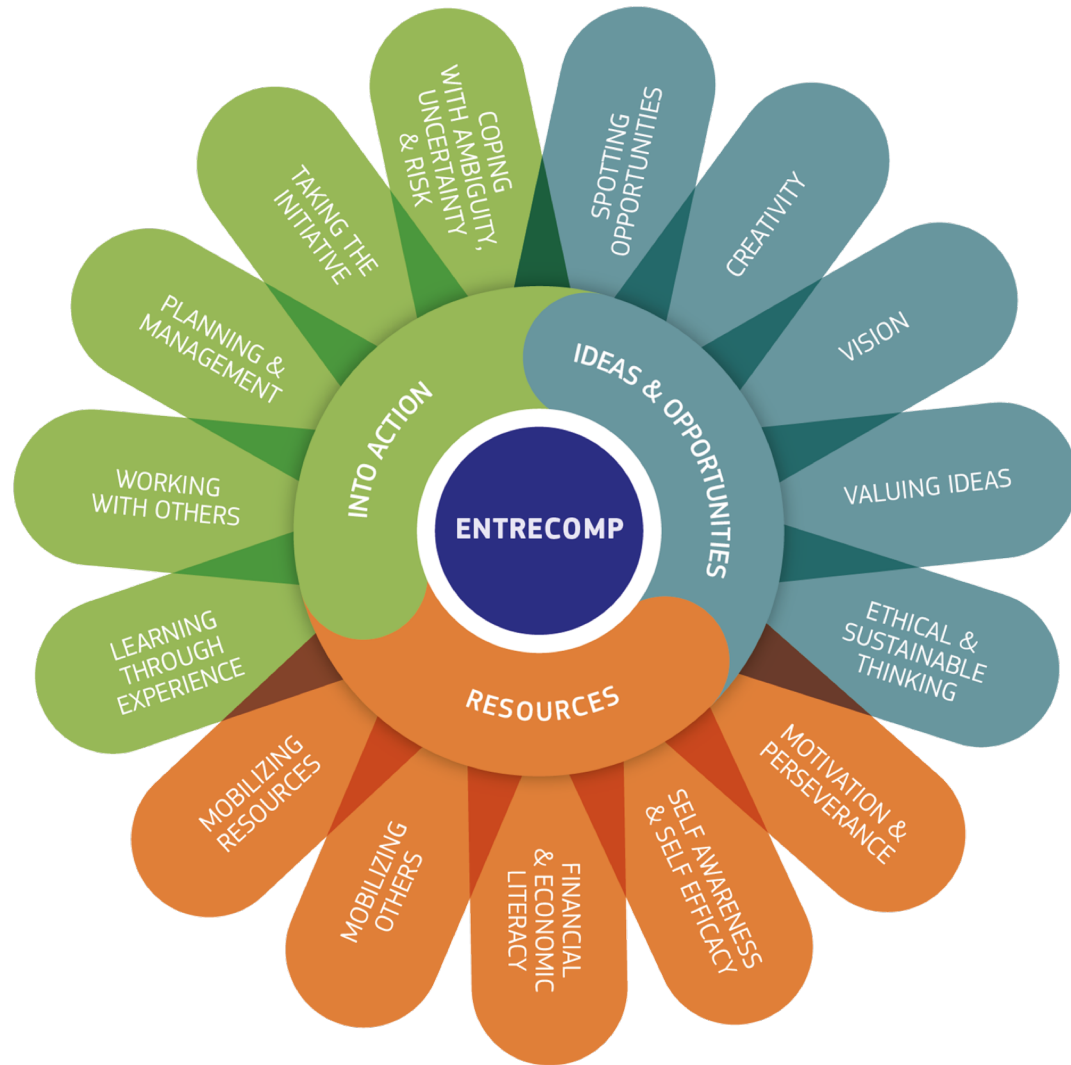

- 3 Competence Areas: Ideas & Opportunities, Resources, and Into Action
- 15 competences of equal importance
- Adaptable and flexible
- A simple starting point
- A progression model with 8 levels

Creating social value for others: social entrepreneurship projects, generating innovative solutions to environmental challenges, generating ideas for campaigns on social issues, establishing a sports club or setting up a student parliament.

Creating cultural value for others: promoting intercultural awareness and learning, identifying and creating solutions to cultural challenges in the local community or designing new cultural activities supporting theatre, music or cultural heritage.

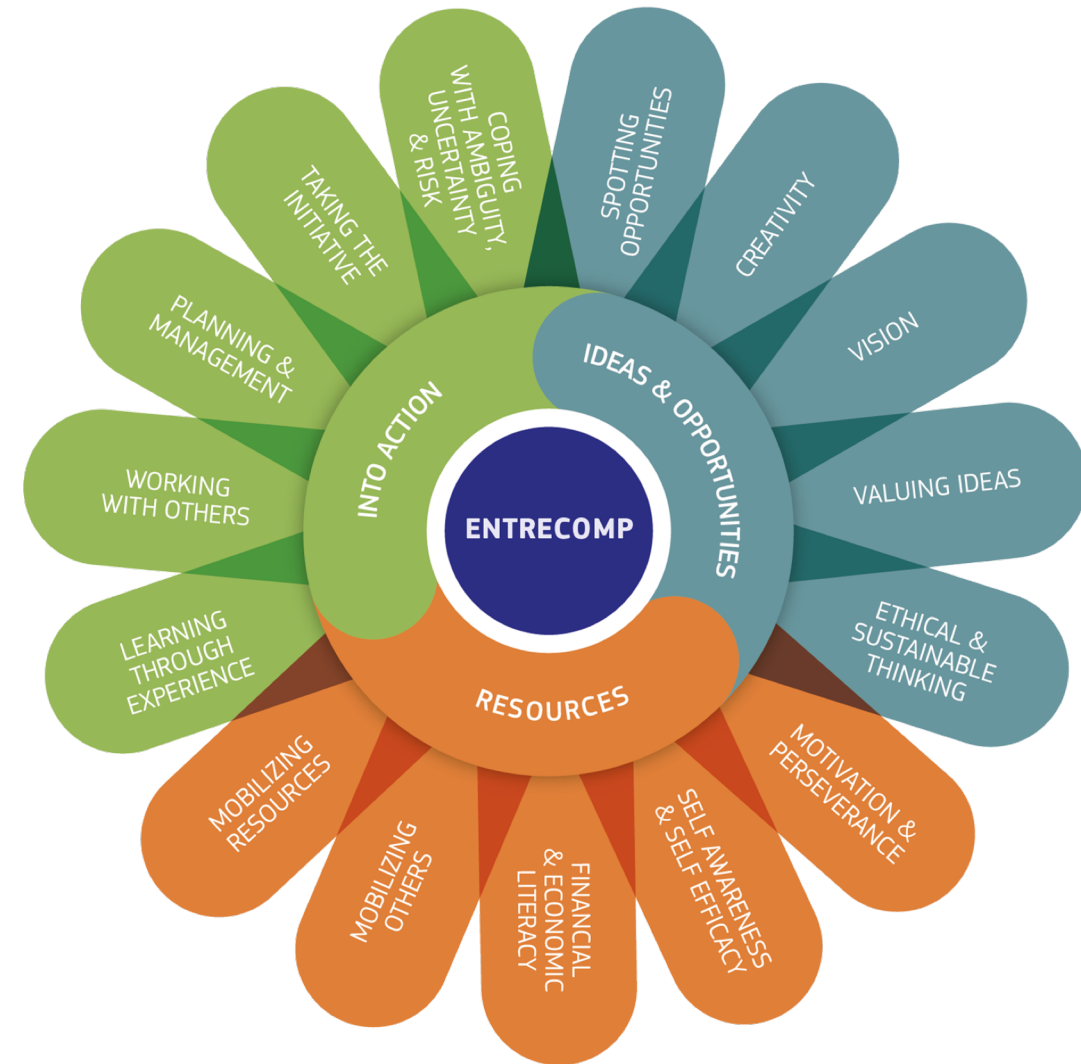

Creating financial value for others: a mini-company initiative, fundraising activities for local charities or generating ideas to solve specific challenges faced by local businesses.

What is your EntreComp strength?

Which EntreComp related skills and attitudes do you have... How do you use them in your daily life...

Do you develop these competences in your learners?

bit.ly/ecintoaction

Over to you:

Design an initiative or learning activity which develops entrepreneurial value

1. develops EntreComp competences
2. creates value for others
